TOTALS	8,291,529	4,025,770	8,410,506	3,337,263

Approximately 8,410,506 gallons of used oil derived burner fuel delivered in Utah.***

Approximately 12,317,299 gallons of used oil collected from generators and used oil facilities in and around Utah.

Approximately 3,337,263 gallons of used oil delivered outside Utah.

*** This total does not include the 4,956,931 additional gallons of diesel mixed with used oil and sold as used oil derived "diesel".

Adjustments were made to individual annual reports to avoid double counting used oil that was collected by one transporter, then picked up by another transporter and reported in each transporter's annual report.
